

Offering of the Week feature

The Offering Of The Week feature displays this week's offering(s), according to the offering calendar set up by the conference/union/division. This features makes it easier to find the scheduled offering each Sabbath, and allows you to create a scheduled offering that donates to the Offering Of The Week, regardless of who the funds are going to.

How it works

Offering Of The Week takes the calendar information from the General Conference downwards, and displays the scheduled offerings appropriate to the church or entity that you select. So if you select a local church in the Greater Sydney conference, you would see General Conference, South Pacific Division, Australian Union Conference and Greater Sydney Conference and the local church offerings. Whereas if you select a local church in the North New Zealand conference, you would see the weekly offerings for the General Conference, South Pacific Division, New Zealand Pacific Union Conference, North New Zealand Conference and the local church.

There are two offerings of the week that can be scheduled:

- Church Offering of the Week - collected during the church service
- Sabbath School Offering Of The Week – changes between 'weeks 1-12 Sabbath offerings', and '13th Sabbath special offering'
